Membership, privacy & choices

Read the commitments and privacy information before signing on the next page.

07 Participation and member conduct

Eligible members elect committee members and committee chairs under the Constitution and committee rules. General membership does not elect, appoint, recall or replace the President or Presidential Council. Participation and leadership eligibility require the applicable checks; no seat or appointment is guaranteed.

Membership does not authorise representation of IAF, technical approvals or accreditation. Use marks only as authorised. Maintain current affiliations and conflict disclosures and respect confidentiality, privacy, intellectual property and lawful competition.

Remain open to lawful cooperation, including standards, research, training and sector development. Consider proposals constructively and agree project obligations separately. No unrestricted access to confidential information or resources is granted.

Individual membership is personal and non-transferable. Professional licences, personnel certificates and technical appointments require their own valid authorisation.

08 Privacy information and optional choices

IAF uses application records to assess eligibility, verify authority, administer membership and protect record integrity. Access is limited to authorised staff, necessary service providers and relevant technical reviewers under the membership privacy notice.

Before submitting, obtain the notice identifying the responsible legal entity, privacy contact, purposes, lawful bases, recipients, transfers, retention criteria and rights. Records follow the applicable retention schedule and justified holds. Use the verified privacy contact for access, correction or other rights; statutory complaint routes remain available.

Basic public membership-verification fields follow the notice and membership terms. The optional profile and promotional choices below do not affect admission and may be withdrawn through the verified privacy contact.

- ☐ OPTIONAL: Publish only my approved profile details entered below in the member directory.
- ☐ OPTIONAL: Send me IAF news, events and promotional invitations by email. Essential membership notices remain separate.

Optional public profile - do not include private contact or ID details

Approved public website / professional profile URL

Inform IAF promptly of relevant changes under the Membership Guide. Questions and adverse decisions follow the published contact and appeal routes; mandatory legal rights remain available.

Individual accession & signature

Sign personally. A corporate resolution and a corporate transition undertaking are not required.
